TEACHERS' INSTITUTE.

To Convene At Monteagle, Monday, June 6th.

The Teachers' Institute for Marion County, will be held at Monteagle, beginning June 6th and continuing two weeks.

Competent instructors have been employed, and everything possible will be done to make the Institute a success.

Instruction will be given in the branches to be taught in the public schools (both primary and secondary) and all teachers are requested to bring their text books on these subjects. Please don't depend on borrowing books at the Institute.

The teachers of Grundy county will join us, and will remain with us during the entire Institute.

I hope that all school officers and all who are interested in the public schools of our county will unite in demanding that their teachers attend this meeting and spend the whole time in making preparations for the responsible duties which they are about to assume.

There are a few teachers. I suppose, in every county who are always sick during Institutes, but always well when time to open school comes. This is strange.

How many teachers can you call to mind who failed to reach their respective schools, because they were sick? How many who failed to attend educational meetings because they said they were sick?

When you see this notice please do not begin to prepare a batch of excuses for not attending the Institute, but begin at once to make ready to spend two weeks in better fitting yourselves for the work in which you are engaged.

I shall excuse no one, and I hope the school officers and the people will stand with me in seeing that no one is allowed to teach who does not attend and procure a certificate according to law.

Efforts are being made to get reduced rates on the railroads, and when you buy your ticket, ask for cheap rates on account of Teachers' Institute.

Don't wait till the middle of the week to make up your mind on Monday, prepared to stay the entire time.

The Monteagle Hotel will make the same rates as last year, \$3.00 per week.

Should there be a vacancy in any school or account of non-attendance, principals can secure the services of teachers who have complied with the law by corresponding with the Institute.

Very respectfully,

B. A. TATE,
County Supt.

A Startling Test.

To give a life, Dr. T. G. Merritt, of No. Montgomery, Pa., made a startling test resulting in a wonderful cure. He writes, "A patient was attacked by violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters are positively guaranteed for Dyspepsia, Indigestion, Constipation and Kidney troubles. Try them. Only 25c at Whitwell Drug Co.
